

ABOUT US

ISHRED was established in 2004 to service the growing needs of today's business sensitive information which include medical facilities, financial institutions, mortgage companies and schools. Our success stems from our commitment to maintain the highest level of security, understanding our client's needs and requirements, as well as doing everything it takes to exceed our client's expectations. From your home front door to a business with thousands of employees, we are small enough to care, but large enough to handle any job.

We provide our clients with the most efficient, state-of-the-art "NO TOUCH" shredding service available. Our mobile shredders are capable of shredding 6,000 lbs. per hour. The equates to savings, lowering the price without the sacrifice of service and security. As a member of **N.A.I.D.** (National Association of Information Destruction), we are committed to uphold and honor their code of ethics and guidelines.

Alisha & Dan Milliken

DID YOU KNOW: For every one ton of paper that is recycled, up to 17 mature trees can be saved from unnecessary destruction. This process not only saves thousands of mature trees each year, but also uses 64% less energy, 50% less water and produces 74% less air pollution than one ton of paper products made from virgin wood pulp.

SCHEDULED SECURITY CONTAINER SERVICE

The most convenient way to manage the collection of confidential information is through our scheduled pick-up. Based on your individual needs, **ISHRED** will schedule a time, daily, weekly, every other week, monthly, or every other month, to destroy confidential information. **ISHRED** will provide free of charge, locking security consoles and bins. We offer a selection of sizes that are placed in convenient locations throughout your office facility. All consoles and bins have a paper slot for easy loading access. Our sophisticated shredders can handle paper clips, staples, binder clips, or any type of binder. **ISHRED'S** powerful "on-site" mobile shredding truck will shred just about anything.

PURGE SERVICES (CLEAN-OUT)

Certain records need to be stored until the end of their retention period; then legally they must be destroyed. From one box to thousands of boxes, **ISHRED** can accommodate your needs.

LIMITED SECURITY CONTAINER SERVICE

For clients who want access to a locking security container or bin, but only need infrequent service, we offer a container with "on-call" service. This service still includes on-site shredding with our mobile shredding truck.

RECYCLING RESPONSIBILITY

At **ISHRED**, we recognize the need to protect our trees and our ozone layer. It is our policy to recycle all paper we shred, bail, and pulp for reuse. For our large volume clients, we give back 50% of all money earned from recycling to the charity of their choice.

LOCKING SECURITY CONSOLES AND BINS

At **ISHRED**, we provide to our scheduled clients, free of charge, specially designed secure locking console units or bins to be placed strategically throughout your office or facility.

OUR TOTALLY SECURE "NO-TOUCH" PROCESS

Documents are placed into the locking security consoles by you or your staff which are placed conveniently throughout your office.

On your scheduled day, one of our service representatives will unlock the console and empty the bag into a locked bin.

The bin is then wheeled to the mobile shredding truck outside, where it is lifted to the shredder.

The bin is then dumped into the shredder. The shredder shreds a full 96 gallon bin in less than 3 minutes. Our shredders are so powerful, it's not necessary to remove binders, staples or binder clips.

The documents are shredded into unrecognizable pieces and taken to our local recycling facility where it's processed back into paper.

After your documents are destroyed, our service representative will sign and issue you a "Certificate of Destruction".
